RE: Silt Sock BMP for Erosion Control

Mr. Ward,

The Stormwater Division of the City of Branson, in cooperation with the Engineering Division have reviewed the submittal of your product – Silt Sock and have found it to be an acceptable BMP to be utilized as a silt fence, straw wattle, perimeter protection BMP, inlet protection BMP and as a ditch check BMP. We will require that the contractor install this product per the manufacturer's specification.

The City of Branson's approval for the use of this product does not in any way obligate or specify their use on any and all private or public projects.

Approval of the use of this product is contingent upon continued compliance with the manufacturer's specification and satisfactory field performance.

The City of Branson would like to thank you for commitment to improving the water quality in our region.

Sincerely,

Kirby Dieterman CESSWI
Stormwater Coordinator
Engineering Division
